Dr. Susan Marriott

Founder and President, BioScience Writers, LLC, Houston, TX

Dr. Marriott is a Professor of Molecular Virology and Microbiology at Baylor College of Medicine and the President of BioScience Writers, LLC. After receiving a PhD degree in 1987, Dr. Marriott did a postdoctoral fellowship at the NIH studying human retroviral gene expression. In 1991 she joined the faculty at Baylor College of Medicine (BCM) where she is currently a Professor. Dr. Marriott is a member of the BCM Center for AIDS Research, Dan L. Duncan Cancer Center, and National School of Tropical Medicine. From 2006-16 she was the Director of the T-32 funded BCM Interdepartmental Graduate Program in Cell and Molecular Biology.

In 2001 Dr. Marriott founded BioScience Writers, LLC (BSW) to provide professional editing/writing services to scientists around the world. BSW has become a leading provider of these services to individual clients, institutions, organizations, publishers, and companies with over 100 MD and PhD level editors and writers. BSW also presents instructional scientific writing workshops to organizations around the world.
